

13-Time USEF Four-in-Hand National Champion Combined Driver Chester Weber is a TheraPlate Brand Ambassador

Weatherford, TX (March 10, 2016) – As another season of world-class combined driving is underway for the greatest whip in American history, reigning Four-in-Hand National Champion Chester Weber is proud to announce the addition of an exciting new sponsorship to his team. Weber is now sponsored by TheraPlate Revolution Therapy Platforms, and is an Official TheraPlate Brand Ambassador.

TheraPlate Revolution offers highly effective therapy platforms, which use dynamic movement to help horses, people, and other animals improve fitness, relieve pain, and foster healing. The therapy platforms gently and rapidly help users reach ideal body conditions while causing zero impact. By simply standing on the plates, users can increase blood circulation, build muscle, reduce inflammation, and incur many other health benefits.

Weber currently drives an award-winning team of KWPN geldings comprised of horses owned by Weber and by Jane Forbes Clark. He delivered clean and decisive victories throughout a successful 2015 competition season that spanned from his summer of topping international score boards across Europe, to finishing the year claiming his twelfth USEF Four-in-Hand National Champion title in Kentucky. Team Weber then took the top placing at Little Everglades Ranch CAI 2*, dominating all three phases of the competition which served as a Selection Trial for the 2016 FEI World Driving Championships. He followed this with an unprecedented thirteenth USEF Four-in-Hand National Championship victory at his home base of Live Oak International in Ocala, Florida this past February.

While Weber isn't negotiating his and Clark's team of elite KWPNs through the intense challenges of marathon, dressage, and cones phases, his team now has the ability to refuel and step into comfort on the TheraPlate therapy platform.

"TheraPlate is excellent for warm up and cool down for all my performance horses," stated Weber. "The increase in

circulation that TheraPlate provides helps reduce the chance of swelling and inflammation. TheraPlate is an excellent addition to our care and conditioning program.”

TheraPlate Revolution, the Official Therapy Plate of the United States Equestrian Federation (USEF), offers therapy platforms that improve fitness, relieve pain, and provide healing therapy to both horses and their human teammates. The innovative therapy platforms use dynamic movement to maximize performance, allowing horses to return to competition sooner by reducing healing time. The therapy platforms also reduce the chances of injury as muscular and connected ligaments and tendons become more fit.
