

Choice Of Champions Salutes Undeclared Team Weber Aiming for Aachen

Wellington, FL (July 10, 2014) – Choice of Champions is continuing its legacy of keeping horses at the top of their game. Chester Weber, a longtime user of the Choice of Champions products, is currently driving with the best in the world in Europe with his sights set on the CHIO Aachen and the 2014 Alltech FEI World Equestrian Games.

“The horses remain in top form and continue to prove that we are contenders. I am incredibly pleased with my team’s overall synergy. They are like a well-oiled machine and we will continue to perfect our technique at Aachen,” Chester Weber told the European press in June after his second consecutive victory at CAIO4* Saumur (France), also anchoring the Bronze medal for Nations Cup US squadmates Allison Stroud and Misdee Wrigley-Miller.

Team Weber, powered by KWPN geldings co-owned by Weber and Jane Forbes Clark, has proven unbeatable in Europe as the road to Aachen and qualifying for Normandy’s World Equestrian Games shortens, including victor’s honors from HRH Queen Elizabeth at the prestigious Royal Windsor Horse Show. Earlier in the spring, while still competing on US soil, the horseman dubbed ‘Mr. Dressage’ drove to a record 11th US National Four-in-Hand Championship at the Live Oak International CAI and rewrote combined driving history at the Kingdom of the Sun CDE with a never-before-achieved dressage phase score of just 30.89.

“We are proud to be part of Team Weber and to salute Chester for the absolute care and devotion he gives his animals,” said Allyn Maix, president of Choice of Champions, International, whose horse care and supplement products have been keeping America’s most beloved team of driving horses in top form. “Joining him on this journey has been almost as thrilling as riding in the carriage with him!”

Choice of Champions products have a longstanding reputation for quality and effectiveness. But can they predict the future? All Maix will add, with a knowing wink, is that Team Weber has been choosing Choice of Champions through several winning European tours including – in 2013 – a victory in the CAI-A4* Caen test event for the World Equestrian Games.

“He continues to redefine the world’s perception of American combined driving. As Chester and the team head to Germany for CHIO Aachen and CAI Riesenbeck before setting their sights on Normandy, we’ll be there too, stride for stride. Good luck, Team Weber!”

In 2006, Choice of Champions, International was started by Allyn Maix, whose own 30 years experience with horses inspired her to launch a line of specialized equine supplements designed to make a real difference in the performance and wellbeing of equine athletes.
